

EMDEK GR SERIES TRACTOR MOUNTED GRASS MOWERS

The EMDEK GR Series Grass Mowers are suitable for tractors of 15-35HP. Available in 2 cutting widths of 36" and 48". Comes with PTO shaft and shearbolt clutch. Height adjustment is through skid adjustment. Twin swing back aero-dynamics blades which lifts the grass before cutting to give a clean and even cut. Used for grass care, excellent for football fields, parks, road sides, etc.

Optional : Also available with front and rear rollers.
