

SPRAYING EQUIPMENT

EMDEK CIRCLE & STRIP SPRAYER

MODEL	400	600	800
Tank Capacity, L	400	600	800
Tank Material	Fiberglass / Strong Polyethylene (PE) with UV Protection		
Choices of Frame Construction Material	Heavy gauge Mild Steel with undercoat and top coat paint		
Chute Construction Material	Steel frame with hot dipped galvanized		
Fan Turbine Speed	Mild Steel		
Spraying productivity, ha/day	High Speed Turbine Fan, can reach 2.430 rpm with air volume 20,000 m ³ /hr		
Max. Pump Pressure, bar	20 - 25		
Pump Discharge Rate, L/min	40		
Tractor horsepower Required, HP	54		
Max Tractor PTO, RPM	45 - 50		60 - 95
PTO Drive Shaft	540		
Tractor Linkage Category	T40 Drive Shaft		
	Cat I & II		

SPRAYER PARTS & ACCESSORIES

Pressure control units made from Italy

Diaphragm pump

Suction hose to draw water from external source

PTO Drive Shaft

2-speed for gearbox: 1:3.5, Neutral & 1:4.5

Hand Wash Tank

External Suction Filter

3 way Valve

Agitator
